Bacteria in the News

Task:
- Select one (1) of the following topics listed below.
- Research the topic and write a one page report that includes the following:
  - Provide details about what happened, include a timeline of events
  - Include an explanation of why it happened (what went wrong)
  - What were the effects of the outbreak, both immediate and long term?
  - What were the lasting effects of this outbreak on food handling, or in the case of Walkerton, water handling?
- Include in-text citations and a works cited page (APA).

1. The XL Foods E. coli outbreak (2012)
